- Percentage: 79.52%

COURSES

Python Full Stack Developer, ISM UNIV Bengaluru
December 2023 — April 2024

PERSONAL PROJECTS

My Portfolio

- A dynamic portfolio showcasing my projects and skills in full-stack development, including expertise in Python, Django, Flask, React, HTML, CSS, and JavaScript.
- Demonstrates my practical experience in building robust and scalable web applications with a focus on user-centered design and efficient back-end architecture.

Wedding-Planner

- Developed an online event order platform, "Wedding-Planner," allowing users to seamlessly plan and book services for weddings and other events.
- Implemented features such as real-time bookings, service customization, and user-friendly interfaces to enhance the overall event planning experience.
- Utilized Python, Django, and front-end technologies to build a responsive and scalable web application.

★ DECLARTION

I hereby declare that the above information is true to the best of my knowledge and belief.
